Lisbon, June 6.

THIS Day being the Anniversary of the Birth of the Prince of Brazil, on which he enters his 5th Year of Age, there has been a numerous Appearance of the Nobility at Court to Compliment their Majesties and his Royal Highness upon this Occasion. The Preparations in the Streets for the solemn Procession, which is to be made on the 8th Instant, in the Western Part of this City, will be finished to Day. All the Religious Orders, Fraternities, and the whole Clergy, are ordered to assist at the said Procession. The three Noble Military Orders are to appear at the Palace in their solemn Habits, to attend the King, who is to walk on Foot after the Sacrament.

From the Imperial Camp near Lemmari in Sicily, under the Command of General Count Mercy, June 4.

May 21. GEneral Count Mercy set sail from Naples with the great Convoy laden with the Imperial Forces, Ammunition and warlike Stores, and arrived at Baya, where they were joined by the British Squadron under the Command of Admiral Byng, and pursued their Voyage on the 22d.

On the 27th we got in Sight of this Kingdom; a Council of War was held, to consult where it would be most proper to land, and it having been judged the Neighbourhood of Patti was the most convenient Place for a Descent, we steered that Way, and could have landed that very Day, had we not been hindered by a great Calm.

On the 28th in the Morning, all the Infantry and part of the Cavalry landed safely near Patti, and marched towards Oliveri, where they arrived at Midnight, and formed a Camp. It was resolved to land the rest of the Cavalry next Morning; but upon Advice General Zumjungen sent from Melazzo, that the Night before the Enemy had abandoned their Camp and their Intrenchments with great Precipitation, and retired towards Castro, which was confirmed by a Deserter who came in at the same time, adding that at Noon the Enemy were at Barcellonetta near Castro, it was resolved to march that Way to attack them; pursuant to which Resolution Orders were sent to General Zumjungen to come with 3000 Foot and the 1000 Horse which were in Melazzo, to join the Army at certain Place.

On the 29th by break of Day we decamped, and the Detachment from Melazzo arrived at the Place appointed, but during the March we were informed by Deserters and other Intelligence, that the Enemy had marched in great Haste 30 Miles further, without Baggage or Artillery, through almost impracticable Ways to Franca Villa. But the rest of our Cavalry not yet being landed, and no Provision being made for supplying our Army with Necessaries, we were thereby hindred to continue to pursue the Enemy, and encamped therefore near Lemmari, within 2 Leagues from Melazzo, on the Road by which the Enemy retired, and where there is still Forage enough. The Inhabitants of this Kingdom at first appeared disposed to oppose our Descent, but the Manifestoes which were dispersed in the Emperour's Name in those Places where we passed, have had that Effect, that Numbers of the Inhabitants are come to submit to the Emperour.

On the 30th the rest of the Cavalry landed near the Place, with the Baggage, and joined the Army.

On the 31st we had Intelligence that the Enemy continued encamped near Franca Villa, from whence they may retire to Messina, Catanea, or Palermo. In the Evening a Detachment had Orders to keep themselves in Readiness for a certain Expedition.

On the 1st Instant, the said Detachment, commanded by Lieutenant-General Baron Seckendorf, was imbarked on board several Tartanes, and sailed in the Evening under the Convoy of two British Men of War, and four Neapolitan Gallies, for the Island of Lipari, where they landed on the 2d and possessed themselves of an advantageous Post.

Yesterday we heard great Firing of Cannon, and this Day General Seckendorf sent Advice to General Count Mercy, that the Town of Lipari had surrendred at Discretion, the Garrison consisting of 200 Spaniards being made Prisoners of War; the Loss on our Side being but of 10 Men killed, among whom is Baron Walbe Lieutenant-Colonel of the Regiment of that Name, and 80 wounded, among whom is M. de Rost, Lieutenant-Colonel of the Regiment of Charles of Lorrain, and two Captains. Of which Expedition we expect further Particulars.

From the Paris Gazette, dated July 8.

Venice, June 17. By an English Ship coming from Smirna, we are informed that there are not contagious Distempers in those Parts; but that they are perceived in several Places of the Morea, where they sweep away great Number of the Inhabitants. Upon this the Magistrates of Health have taken the necessary Precautions with respect to the Ships coming from suspected Places, to prevent the Spreading of those Distempers. According to Letters from Zara and Spalatro, General Mocenigo and the Turkish Commissary have settled the Limits on the side of Vergoratz, but the entire Regulation of the same was not like to be finished before the Month of October; at which time, Sig. Diedo is to succeed Sig. Mocenigo in the Employment of Provedditor General of Dalmatia. On the 13th Instant, being the Festival of St. Anthony of Padua, the Doge, accompanied by the Senate, and the Pope's Nuncio, went to assist at Divine Service at the Church of Nostra Signora della Salute, and the several Religious Fraternities, with the Secular and Regular Clergy, went thither in Procession. The Doge gave afterwards a great Entertainment, as usual. The Day before, several Barks with Pilgrims and Merchants went up the River Po to Padua, the annual Fair, which lasts 14 Days, having been opened there. The Parmesan Regiments which arrived some time ago from Dalmatia, have been sent to their own Country in several Barks, and the German Forces commanded by the Marshal Schulemberg, are forthwith to return to Germany. The Dutchess of Parma is returned to Parma from Inspruck, where she has been to see the Princess her Sister, Consort of Prince James Sobieski; all the Persons who had been under Confinement with the Princess Clementine Sobieski, have been set at Liberty; with Leave to follow the Princess their Mistress to Rome.

From the Hague Courant, dated July 10.

Paris, July 3. A generous Action of Cardinal del Giudice at Rome is much extolled here in publick Discourse. Count Gallas having presented to that Prelate on the Emperour's Part, a Bill of 8000 Crowns, to make good his Revenue in the Kingdom of Naples, which formerly had been confiscated, the Cardinal took the Bill, and having kissed it, returned it to the Ambassadour, saying, that this small Sum might be employed to better Advantage for the Emperour's Service in the present Conjuncture.
